PUPSRC Organization Document Management System

USER MANUAL
(Student Organization Settings and Dashboard Module)

Preface: Navigating the Guide

Welcome to the Eskolarian! This User Manual is made to help users understand how to use the PUPSRC Organization Document Management System (DMS). The system was created to make it easier for student organizations at PUP Santa Rosa Campus to store, organize, and manage their files. It helps keep documents safe, easy to find, and well-organized. This manual will guide you step by step on how to use the system's features. Whether you're a student leader, member, or adviser, this guide will help you use the system well. We hope it makes managing your organization's documents easier and more efficient.

Introduction to Eskolarian

The PUPSRC Organization Document Management System (DMS) is a digital platform designed to help student organizations at the Polytechnic University of the Philippines – Santa Rosa Campus manage their documents more efficiently. It serves as a centralized space where files can be uploaded, organized, shared, and accessed securely. By moving away from manual and scattered file-keeping, the system promotes better organization, faster document retrieval, and improved collaboration among organization officers and members. Whether it's submitting reports, storing event files, or managing member records, the system simplifies the process and supports a more organized and paperless working environment.

Who is Eskolarian for?

Super Admin. As it provides overall access for all necessary and additional features of the system, especially in activating and deactivating student organization accounts.
Campus Administrative In which it allows documents submitted by the Polytechnic University of the Philippines - Santa Rosa Campus Organizations to be approved and rejected without in need of public appearance of the students for document approval
Student Organization By submitting organizational documents, this helps student organizations to submit documents to different offices of Campus Administratives through online.

Scope of Eskolarian for Student Organization

Eskolarian is a digital platform designed to support the needs of student organizations within the Polytechnic University of the Philippines – Santa Rosa Campus. Its primary focus is to provide management, storage, and access of documents and records related to organizational activities. The system is intended for use by recognized student organizations to upload, organize, and monitor important files such as event proposals and other necessary documents. It also provides a centralized and secure space for maintaining transparency and accountability in handling organizational records. Eskolarian aims to promote digital transformation, reduce reliance on physical storage, and ensure that important documents are accessible when needed. While its primary users are student organizations, administrators and campus advisers can also use the platform for monitoring, evaluation, and guidance purposes. The system is user-friendly and adaptable to the evolving needs of the student body.

Disclaimer on System Limitations

The PUPSRC Organization Document Management System (Eskolarian) is developed to assist student organizations in managing and organizing their digital files. While every effort has been made to ensure its reliability and functionality, the system may encounter occasional technical issues such as slow loading times, limited storage capacity, or temporary downtime. Users are advised to keep backup copies of important files and avoid uploading sensitive or confidential information. The system is continuously being improved, and feedback is encouraged. PUPSRC is not liable

for any data loss or misuse resulting from user error or unforeseen system issues.

Student Organization Main Features

The Dashboard and Settings of Eskolarian provides student organizations with the essential tools to monitor and manage their submissions. In the Dashboard, student organizations can view a status count summary of their submitted documents, including totals for pending, under review, approved, and all submitted documents. They can also see a list of their recent document submissions, showing details such as the tag, title, date, status, and document type. Student organizations can view announcements from both admins and the super admin, categorized into recent and previous posts. If an announcement includes a deadline, it will automatically appear in the calendar for easy tracking.

In the Settings, student organizations can change or remove their profile photo, add or remove a recovery email, and change their password. These features allow each student organization to personalize and secure their account while ensuring that important updates and submission activities are easily accessible.

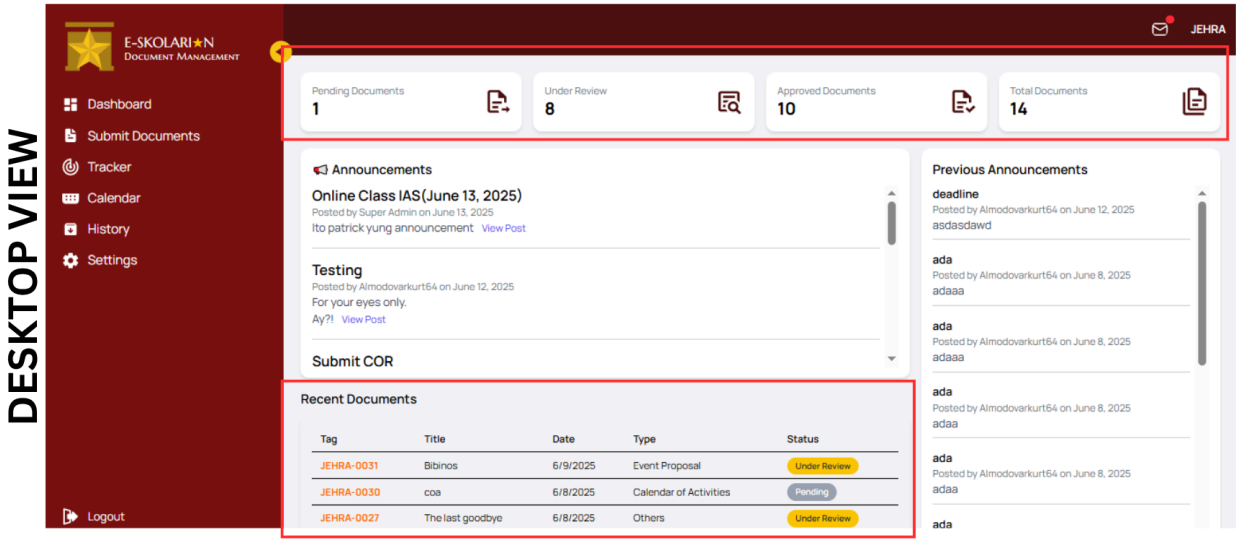

Dashboard Feature

The dashboard feature allows student organizations to view the status summary of their submitted documents. It also displays a list of recent document submissions with details such as tag, title, date,, type, and status. In addition, student organizations can view announcements from admins and the super admin, and

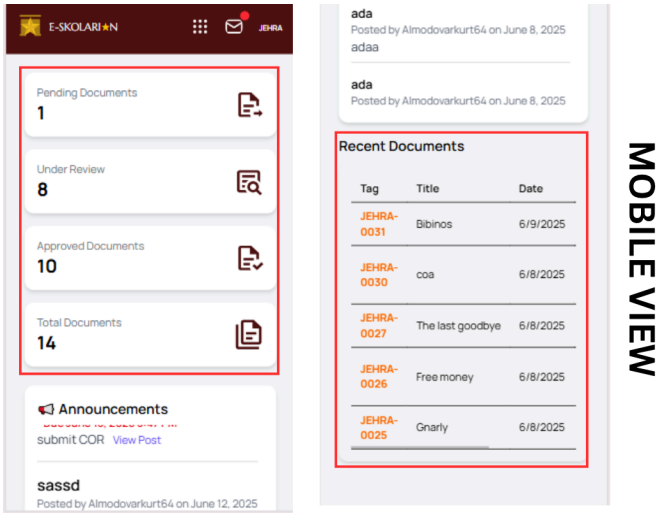

announcements with deadlines are automatically shown in the calendar.

Accessing Document Submission Summary

1. After signing in, you will be redirected to the Dashboard. The top section of the dashboard displays the document status count summary, showing the total number of documents that are pending, under review, approved, and the overall total submitted.

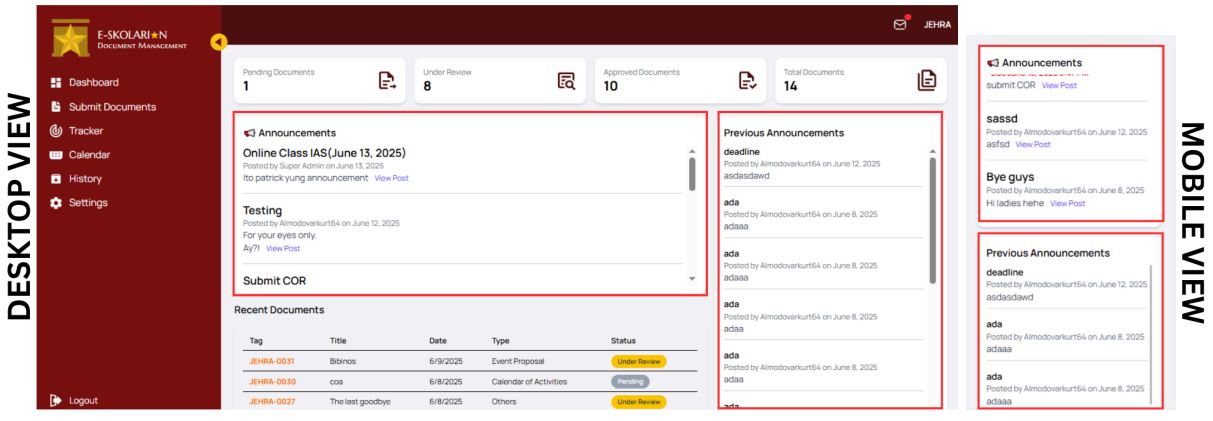

2. At the lower part of the dashboard, you can view the list of your organization's recent document submissions. Each submission includes details such as the tag, title, submission date, status, and document type.

Viewing Announcements

1. Below the document status count summary, you will find the section for announcements. The recent announcements are displayed prominently below the status summary, covering a wide area to highlight the most important updates.
2. On the right side of the recent announcements, you will see the previous announcements section, which is narrower and shows older posts for reference.

Settings Feature

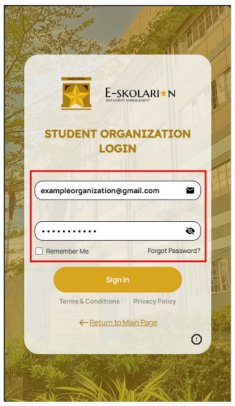

The settings feature allow users to view account credentials of the student organization. This also allows changing the organization profile picture, configuring a recovery email details, and changing password.

Navigating to Student Settings

1. To access the settings, enter the organization's username and password and click the Sign in Button

Desktop View

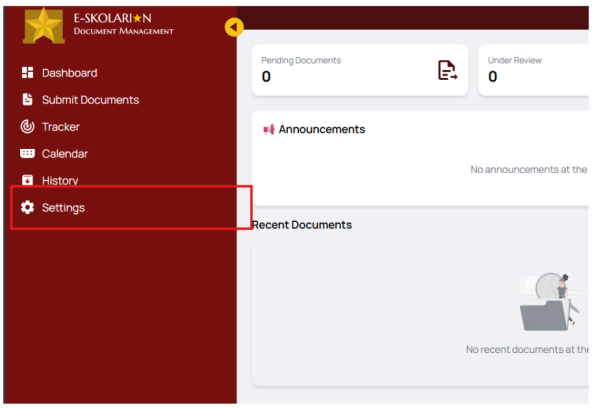

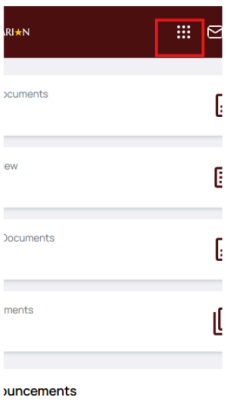

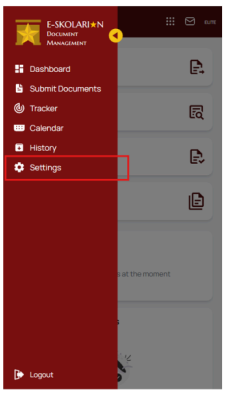

Mobile View

2. As you completely enter the experience, you may see the settings button, you may access it by clicking the button. For Mobile settings, you are tasked to click the "chocolate" icon to access the navigation before clicking the settings button.

Desktop View

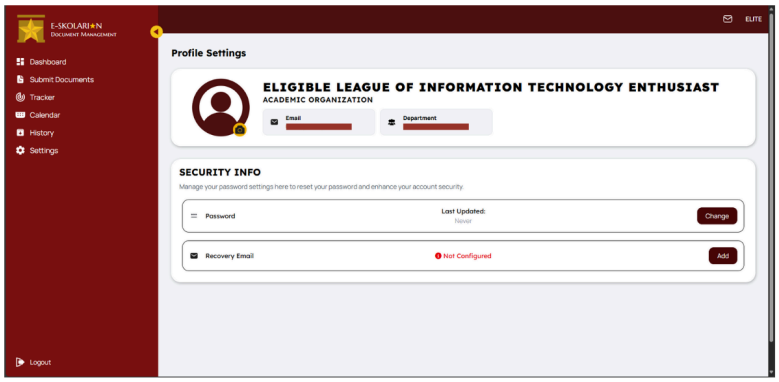

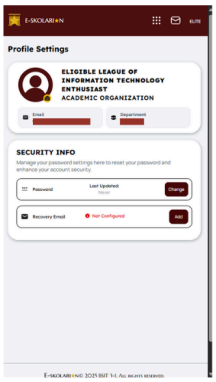

Mobile View

3. You may now view your account credentials in the settings.

Desktop View

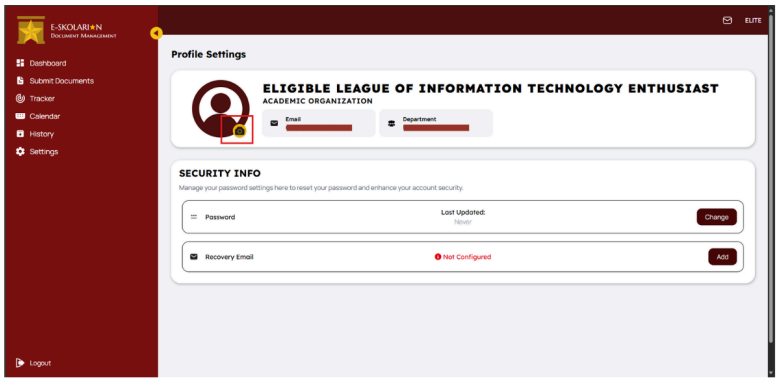

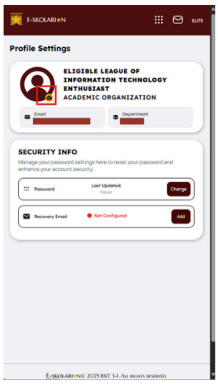

Mobile View

Updating your Organization Image

1. To update your organization image in the system, you are tasked to click the 'Camera' icon beside the profile photo.

Desktop View

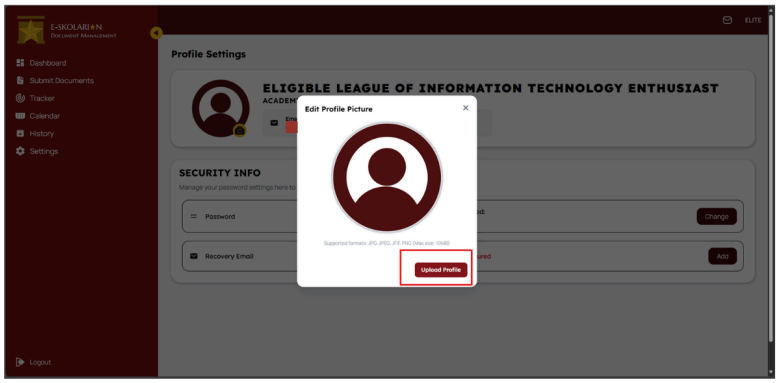

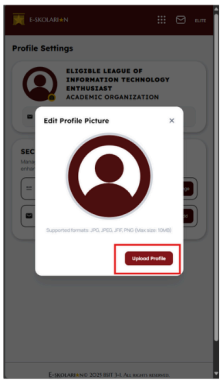

Mobile View

2. A modal pop-up will display on your screen, to upload your desired image, you may click the 'Upload Profile' button.

Desktop View

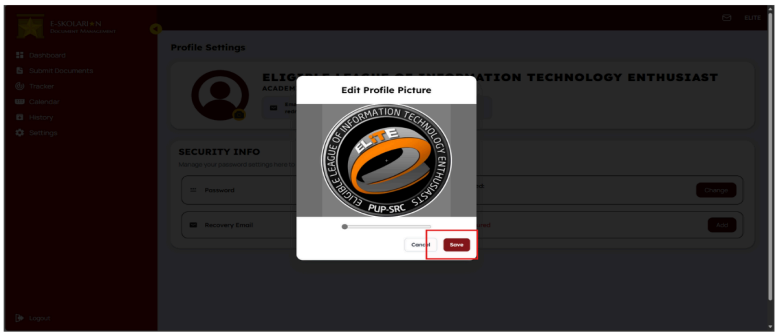

Mobile View

3. The system will redirect to your files in order for you to choose a desired image
4. You may now save the changes to reflect your new organization image in the system.

Desktop View

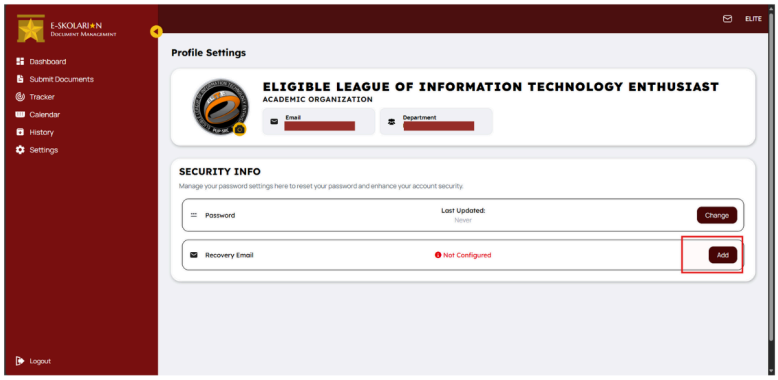

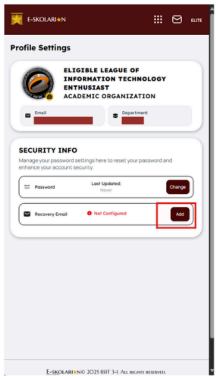

Mobile View

Adding Recovery Email

1. To configure your account's safety, you are tasked to add a recovery email, to do this, you might want to press the 'Add' button in the Recovery Email section.

Desktop View

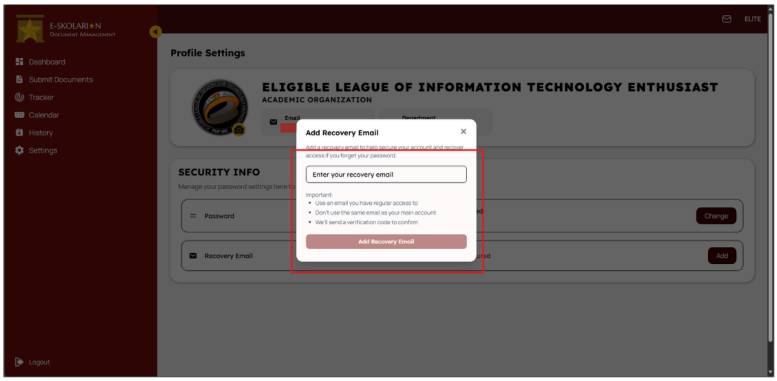

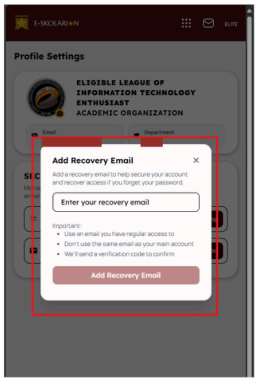

Mobile View

2. A modal pop-up will display on your screen. To add your desired recovery email, enter the email address in the input field provided.

Desktop View

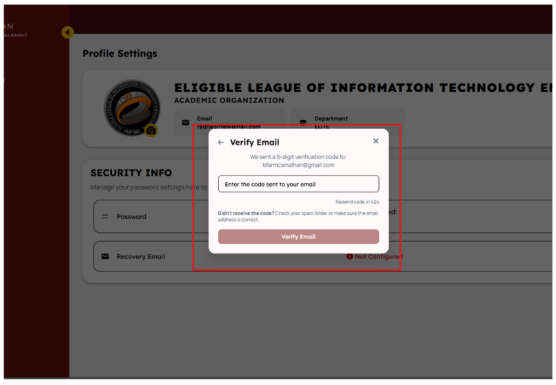

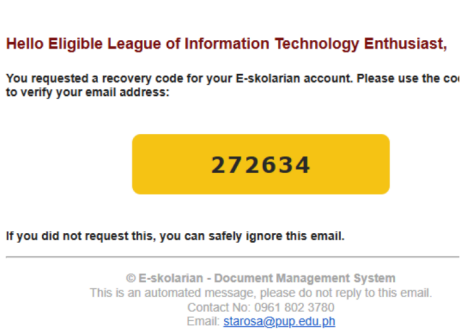

Mobile View

3. Once the recovery email is provided, click ‘Add Recovery Email’. A verification code will be sent to the email address you entered. Enter the verification code in the Verify Email modal that appears, then click ‘Verify Email’. A toast message will show up to confirm that the recovery email has been successfully added.

Desktop View

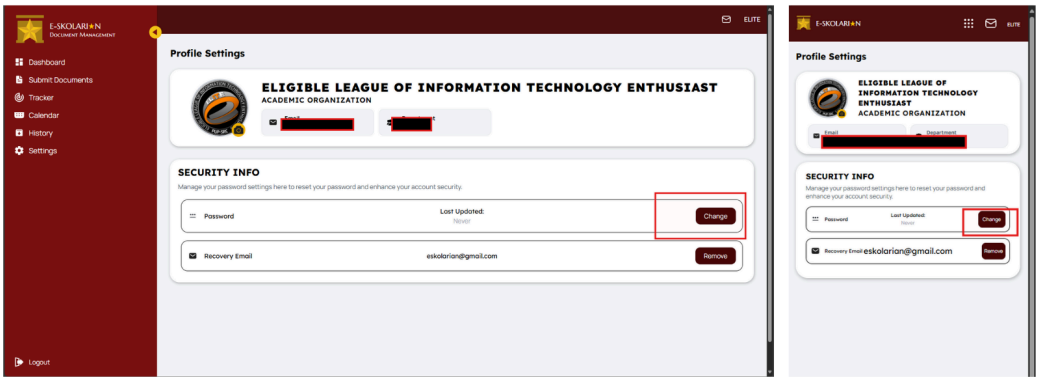

Recovery Message

Changing your Organization Password

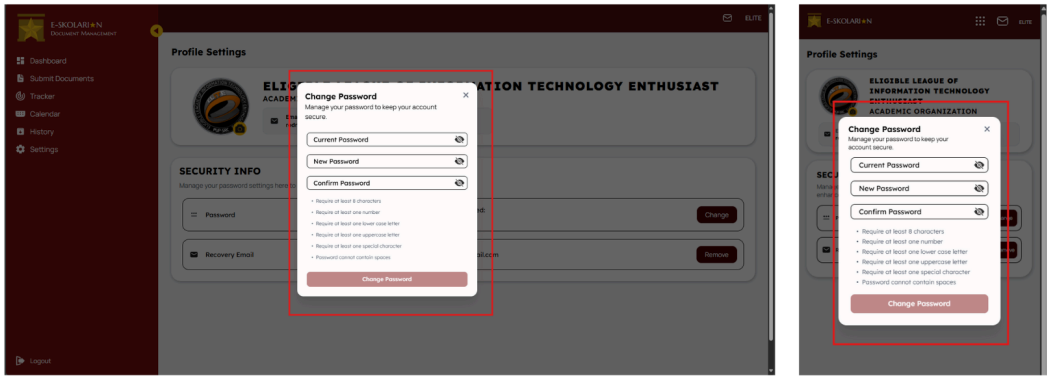

1. To change your account's password, you are tasked to click the 'Change' button in the password section.

Desktop View

2. A modal pop-up will display on your screen, to change your password, you are tasked to enter the necessary inputs for the Change Password.

Desktop View

3. After filling in the fields, click the 'Change Password' button to successfully update your password. A toast message will appear once your password has been successfully changed.

Troubleshooting for Student Organization Issues and Solutions

1. **Dashboard Not Showing Document Summary or Submissions**

   Solutions:

   - Ensure your organization has submitted at least one document so data can appear.
   - Try refreshing the page or clearing your browser cache and reloading the dashboard.
   - Log out and log back in to reload your dashboard view. If the issue persists, contact the admin or system support.

2. **Announcements Not Appearing**

   Solutions:

   - Confirm with your admin if there are any active announcements posted.
   - Check your internet connection and reload the dashboard.
   - Try accessing Eskolarian from a different browser or device.

3. **Unable to Change Password in Settings**

   Solutions:

   - Make sure you enter your current password correctly.
   - Choose a new password that meets the platform's password criteria (e.g., minimum characters, special characters).
   - Ensure all required fields are completed, then click 'Change Password'.
   - If you still encounter issues, contact the admin for password reset assistance.

Contact Information and Support Resources (Internal/Developer Support)

For any technical concerns or assistance regarding the PUPSRC Organization Document Management System (Eskolarian), student organizations may reach out through the following support channels:

- **Internal IT/Development Team Lead**: Ayumi Hidalgo
- **Technical Support Contact**: Red Aaron Negrite – 0915-096-2438
- **Emergency Contact Email**: eskolarian@gmail.com
- **Internal Knowledge Base/Runbook**: Refer to the Functional Specification Document for detailed system processes and troubleshooting guidelines.

Glossary and Index (Technical & System Terms)

Define key technical and system-specific terms.

- Dashboard - A visual overview showing the number of submitted documents categorized into Pending, Under Review, Approved, and Total.
- Document Status Summary - A visual overview showing the number of submitted documents categorized into Pending, Under Review, Approved, and Total.
- Announcements - Notices created by admins or the super admin to inform student organizations about updates,

deadlines, or reminders.

- Recovery Email - A secondary email added to the account to help with account recovery or additional security.
- User Interface (UI) - The part of the system the user interacts with, including buttons, menus, forms, and visual elements.
- Super Admin - A user role with the highest level of control in the system, responsible for managing admins and their announcements.
- Modal Pop-Up - A temporary window or box that appears on the screen to allow users to complete specific actions, such as uploading a profile photo or changing a password.

Closing Statement

Thank you for using the PUPSRC Organization Document Management System. We hope this manual helps you navigate and maximize the platform's features. For questions or support, feel free to contact our team. Together, let's promote organized, secure, and efficient document management across all student organizations in our campus.

The PUPSRC Organization Document Management System (Eskolarian) is developed to assist student organizations in managing and organizing their digital files. While every effort has been made to ensure its reliability and functionality, the system may encounter occasional technical issues such as slow loading times, limited storage capacity, or temporary downtime. Users are advised to keep backup copies of important files and avoid uploading

sensitive or confidential information. The system is continuously being improved, and feedback is encouraged. PUPSRC is not liable for any data loss or misuse resulting from user error or unforeseen system issues.

Admin Main Features

The Dashboard and Settings of Eskolarian provide administrators with essential tools to manage, monitor, and communicate with student organizations effectively. In the Dashboard, admins can view a status count summary of all documents submitted by student organizations, including totals for pending, under review, approved, and all submitted documents. The dashboard also displays a list of recent document submissions, including details such as tag, student organization name, title, date, status, and document type.

Admins can also manage announcements directly from the dashboard. They can create announcements with or without submission deadlines, and choose to display them to all student organizations or select specific ones. Announcements are categorized into recent, previous, and archived. Admins can edit their own recent announcements, archive or delete them, and restore announcements from the archive as long as they have not been permanently deleted. Announcements with deadlines are automatically reflected in the calendar for better tracking.

In the Settings, admins can change or remove their profile photo, add or remove a recovery email, and change their password. These features help ensure account security and maintain accurate profile information. Together, the dashboard and settings module support

administrators in maintaining efficient communication, data visibility, and user control within the Eskolarian platform.

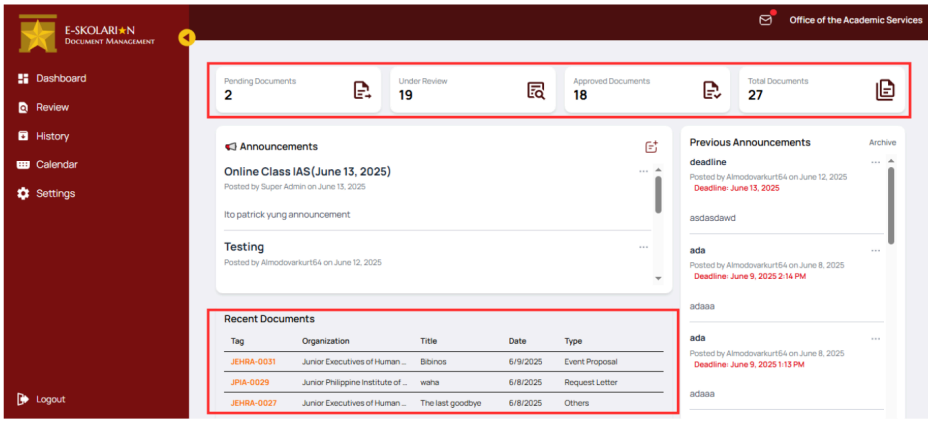

Dashboard Feature

The dashboard feature allows admins to view the status summary of all documents submitted by student organizations. It also displays a list of recent document submissions, showing details such as tag, student organization name, title, date, type, and status. In addition, admins can create, view, and manage announcements. These announcements are categorized into recent, previous, and archived. If a deadline is included in an announcement, it is automatically shown in the calendar for easy tracking.

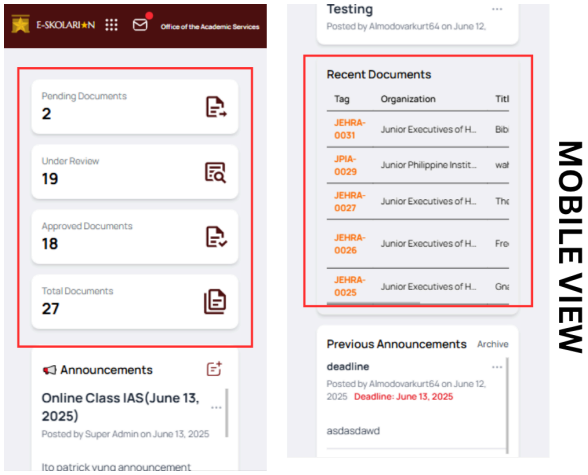

Accessing Document Submission Summary

1. After signing in, you will be redirected to the Dashboard. The top section of the dashboard displays the document status count summary, showing the total number of documents submitted by all student organizations. The summary is categorized into Pending, Under Review, Approved, and the overall total submitted.

DESKTOP VIEW

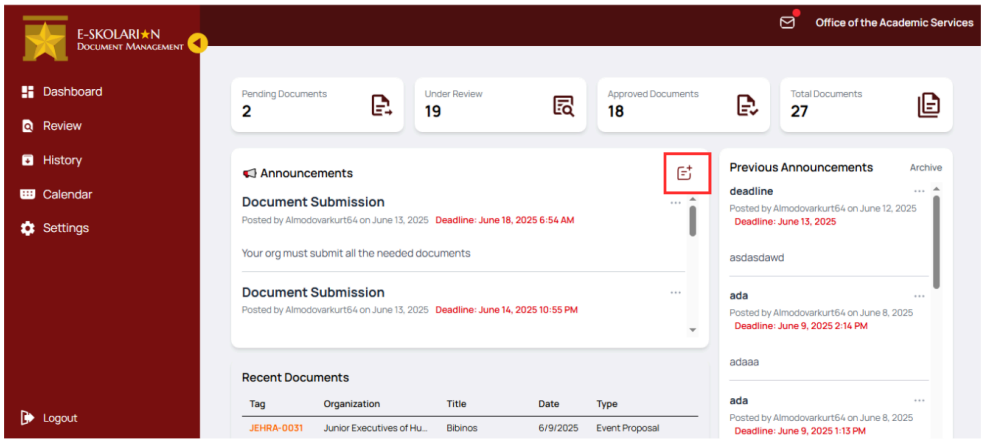

2. At the lower part of the dashboard, you can view a list of recent document submissions from all student organizations. Each entry includes important details such as the tag, student organization name, title, submission date, and document type.

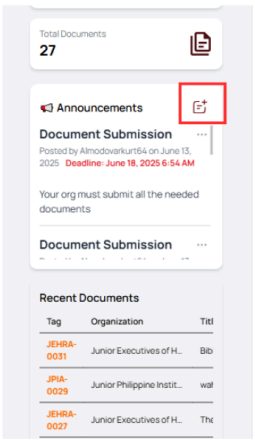

Posting Announcements

1. To post an announcement, find the 'Create' icon at the top of the recent document header. Click this icon to begin posting a new announcement.

DESKTOP

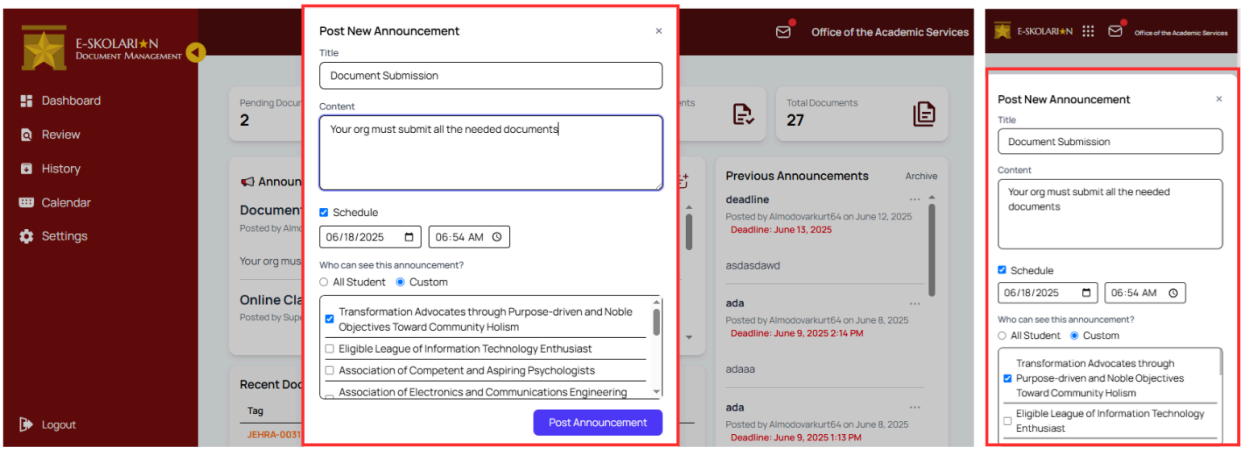

MOBILE

2. As you click this icon, a Post New Announcement modal will

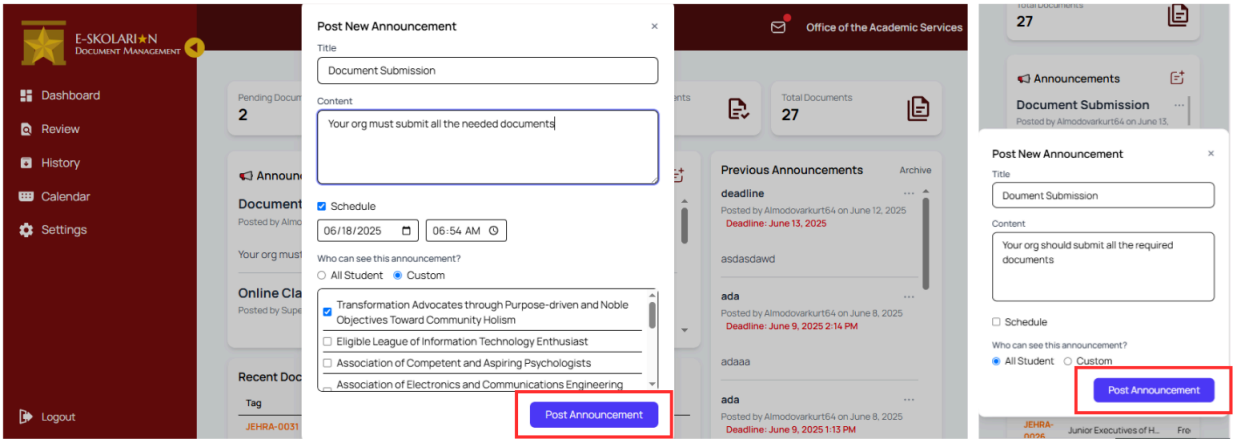

appear on your screen.

DESKTOP **MOBILE**

3. Inside the modal, enter the announcement title and content. If you want to include a due date, check the Schedule checkbox to enable the date picker. You may also customize the visibility of the announcement by selecting Custom, allowing you to choose whether the announcement is shown to all student organizations or only specific ones.
4. Once all details are filled in, click the Post Announcement button. A toast message will appear to confirm that the announcement has been successfully posted.

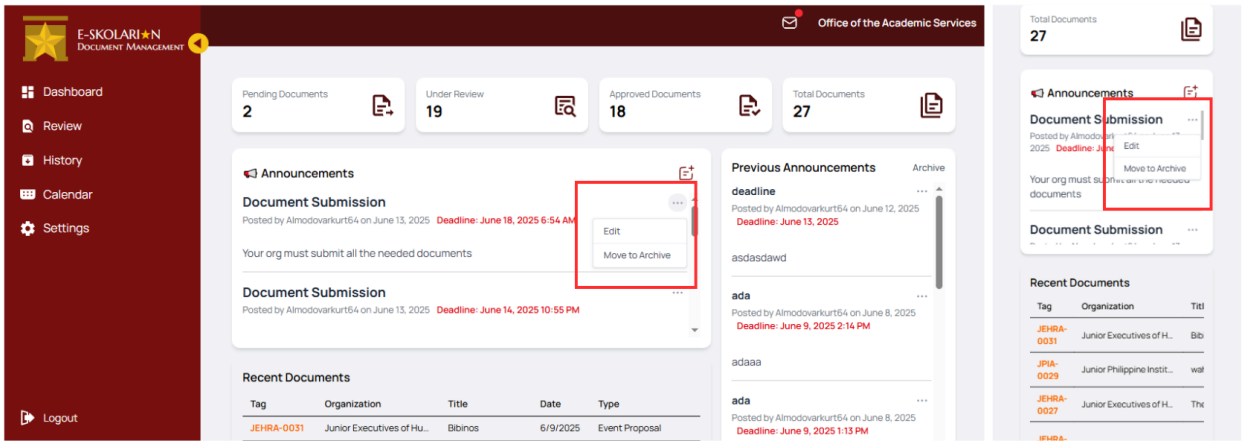

DESKTOP **MOBILE**

Editing Announcements

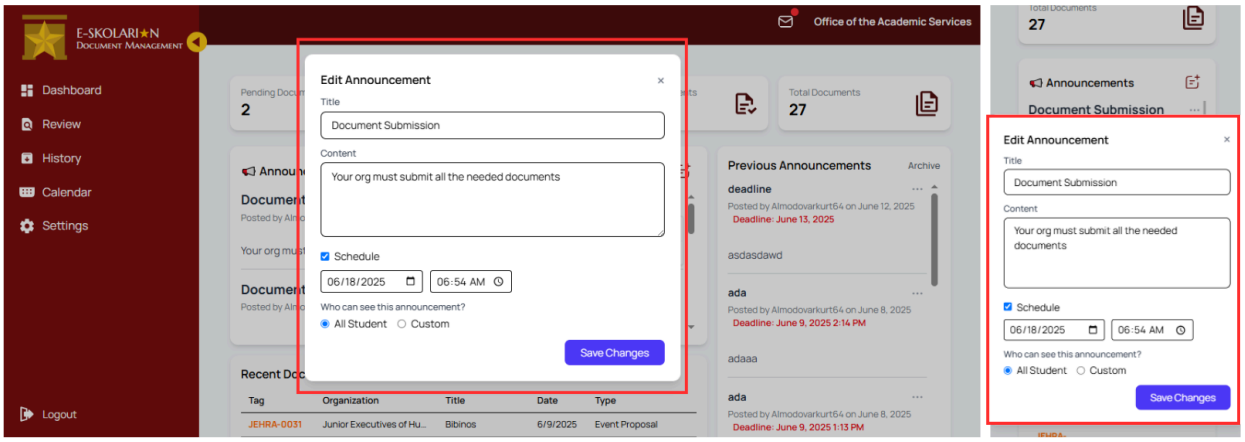

1. To edit an announcement, locate the ellipsis icon (three dots) on the specific recent announcement you posted. Please note that only recent announcements can be edited. Click the ellipsis to open a dropdown menu and select ‘Edit’.

DESKTOP **MOBILE**

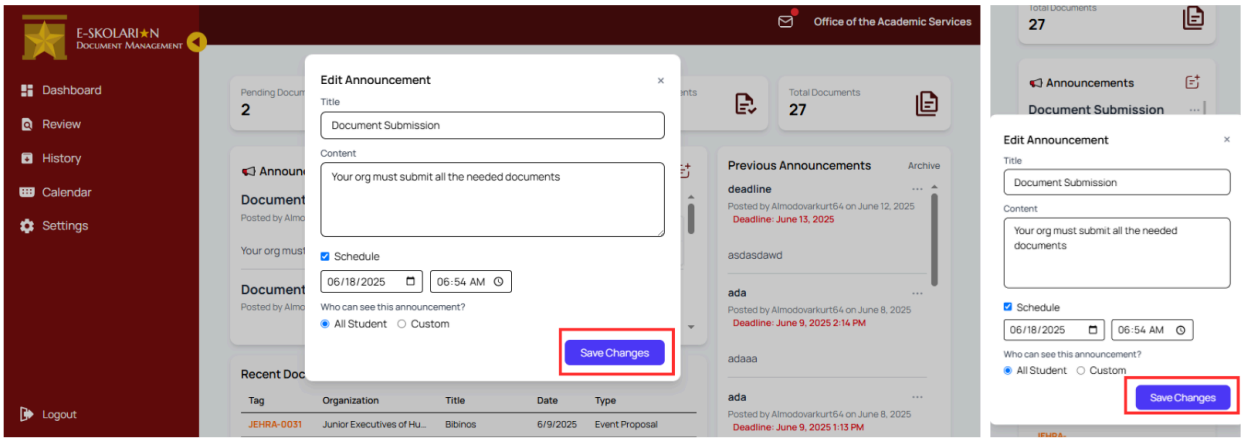

2. Once selected, an Edit Announcement modal will appear. You can now update the announcement title, content, and modify or remove the schedule/due date if one was set. You can also adjust the visibility settings based on your preferences.

DESKTOP **MOBILE**

3. After making the necessary changes, click the ‘Save Changes’ button. A toast message will confirm that the announcement has been successfully updated.

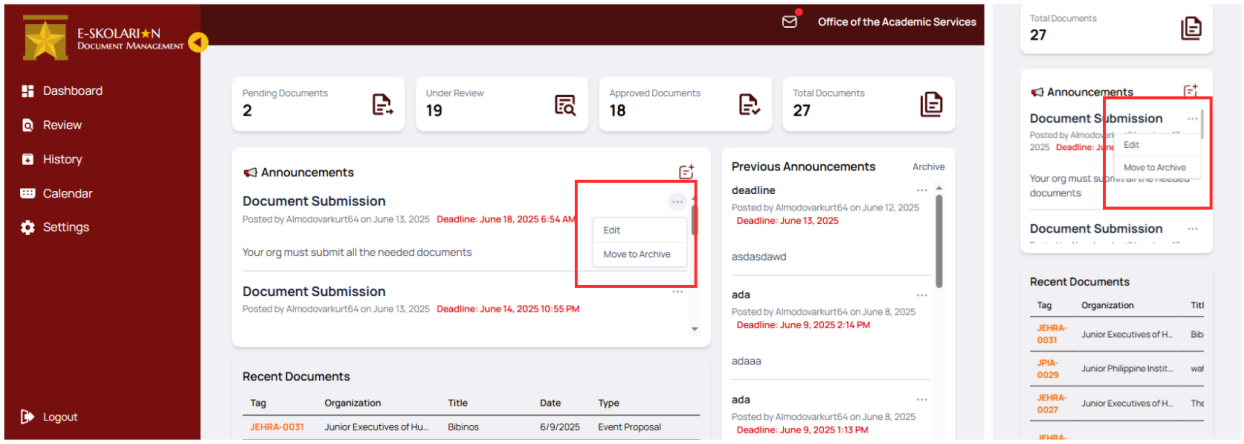

DESKTOP **MOBILE**

Archiving Announcements

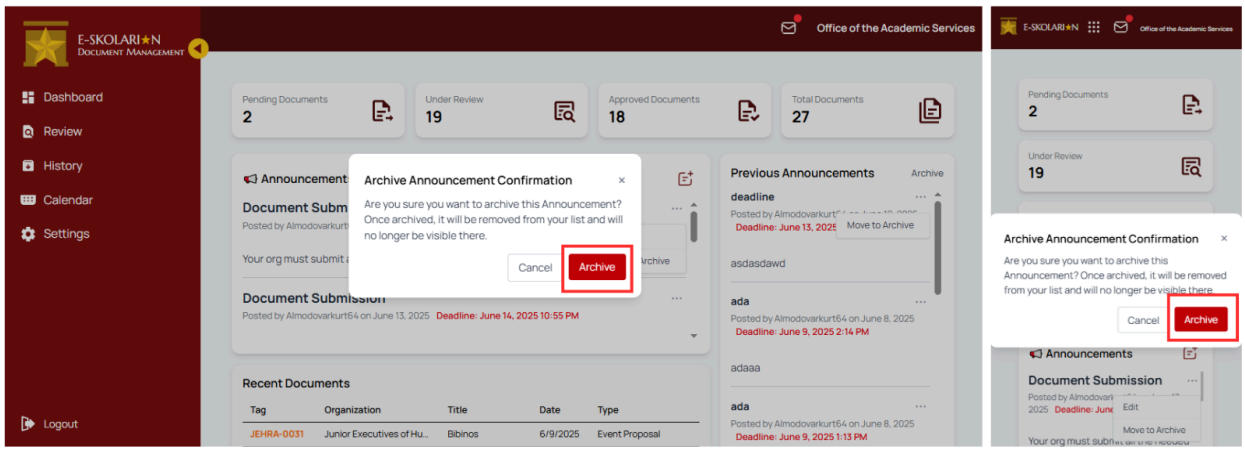

1. To archive an announcement, locate the ellipsis icon (three dots) on the specific announcement you posted. This applies to both recent and previous announcements. Click the ellipsis to open the dropdown menu and select ‘Move to Archive’.

DESKTOP **MOBILE**

2. A confirmation modal will appear asking you to confirm the action. Click the 'Archive' button to proceed. Once the announcement is successfully archived (moved to the archive list), a toast message will appear as confirmation.

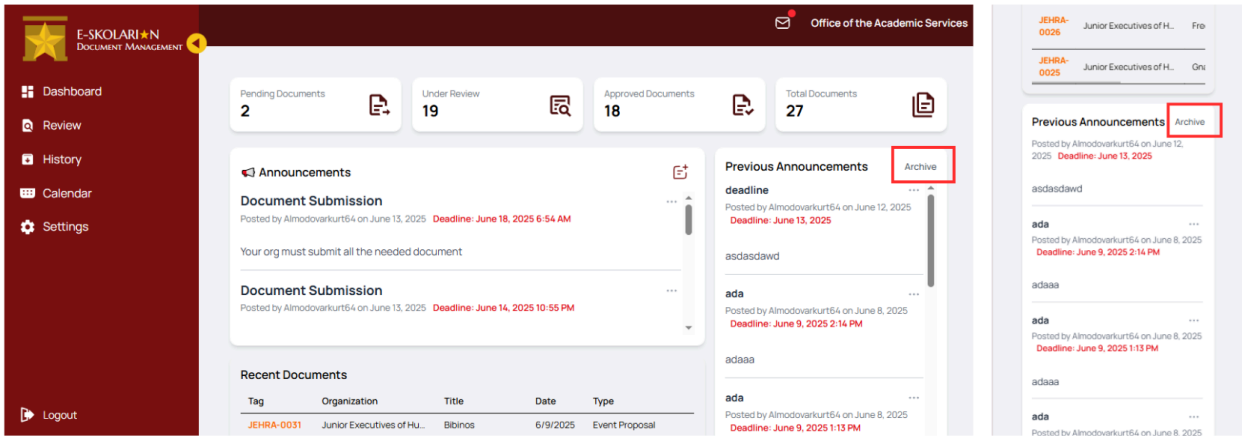

DESKTOP **MOBILE**

Restoring Announcements

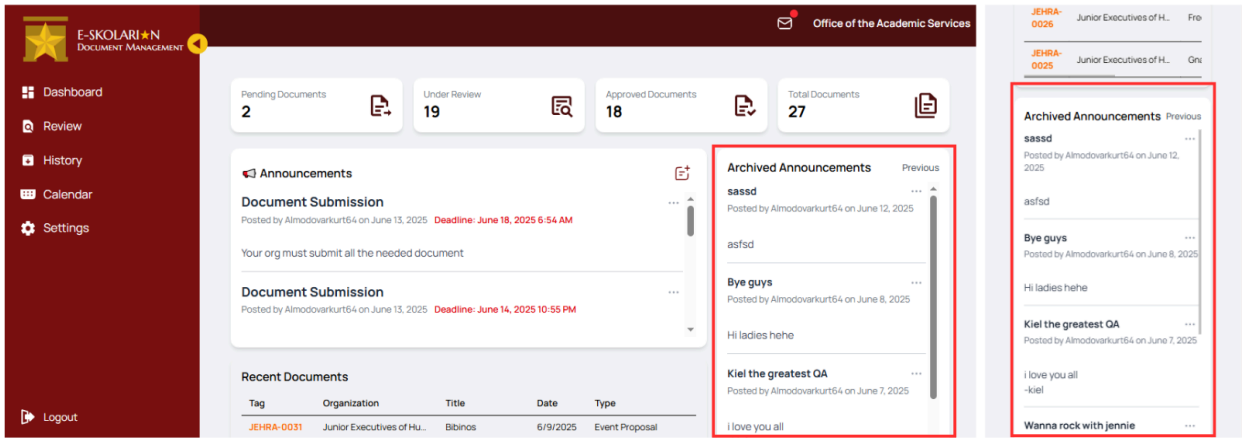

1. To restore an archived announcement, go to the Archived Announcements by clicking the 'Archive' text located at the header of the Previous Announcements section.

DESKTOP **MOBILE**

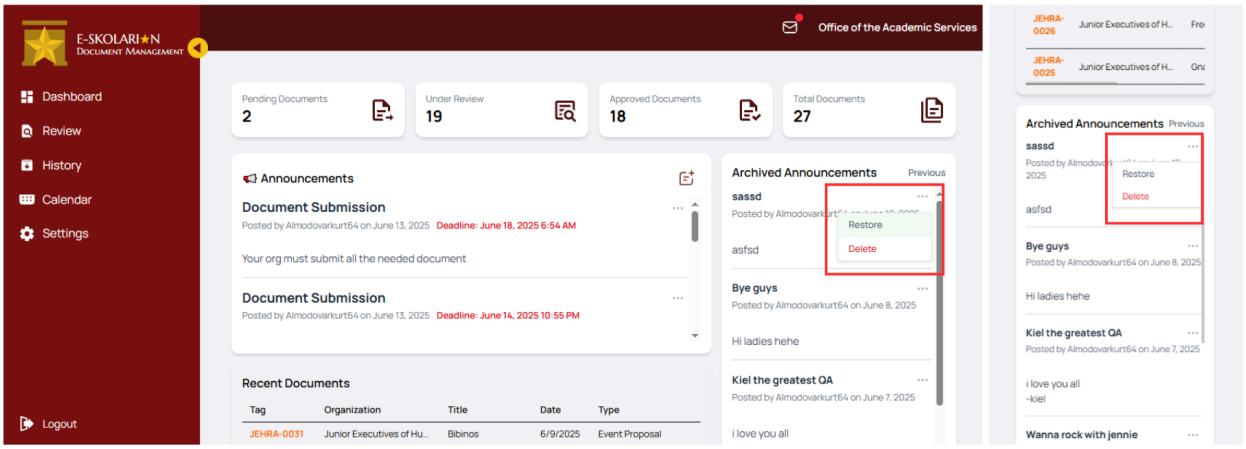

2. Once clicked, the previous announcements container will transition to display the Archived Announcement List.

DESKTOP **MOBILE**

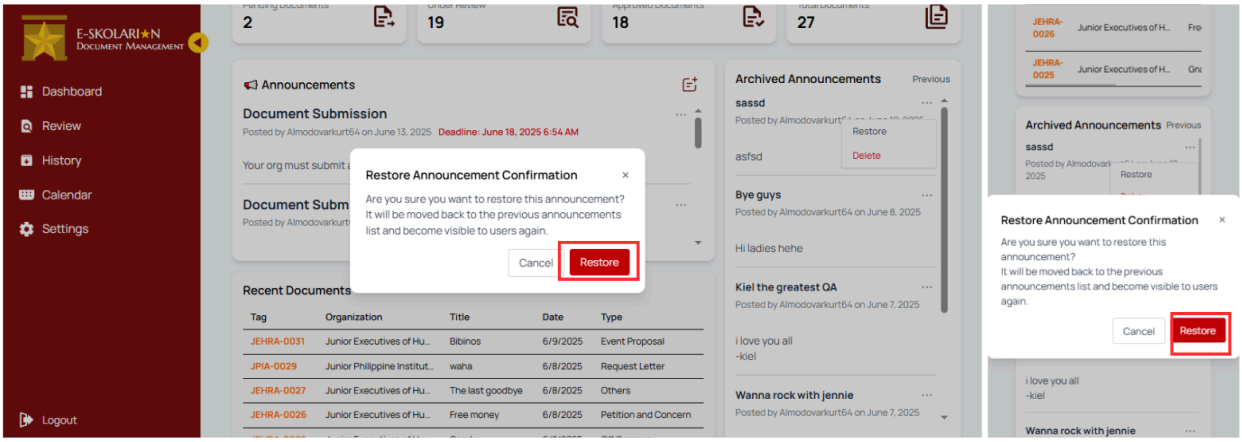

3. Find the announcement you wish to restore and click the ellipsis icon (three dots). A dropdown menu will appear—select ‘Restore’.

DESKTOP **MOBILE**

4. A confirmation modal will appear asking you to confirm the action. Click ‘Restore’ to proceed. Once restored, the announcement will return to its original section—either Recent or Previous, depending on where it was archived from. A toast message will appear to confirm that the announcement has been successfully restored.

DESKTOP **MOBILE**

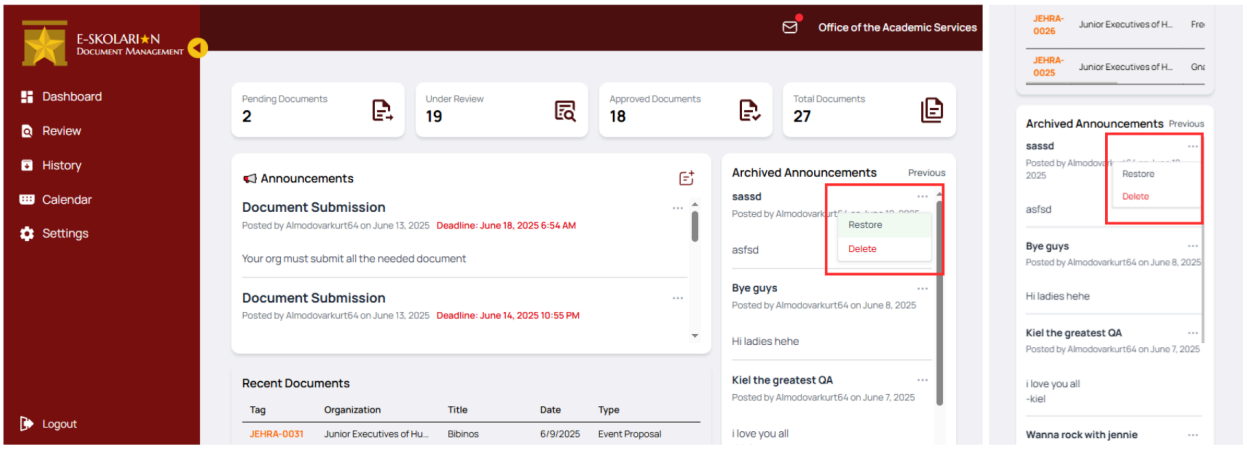

Deleting Announcements

1. To delete an announcement, go to the Archived

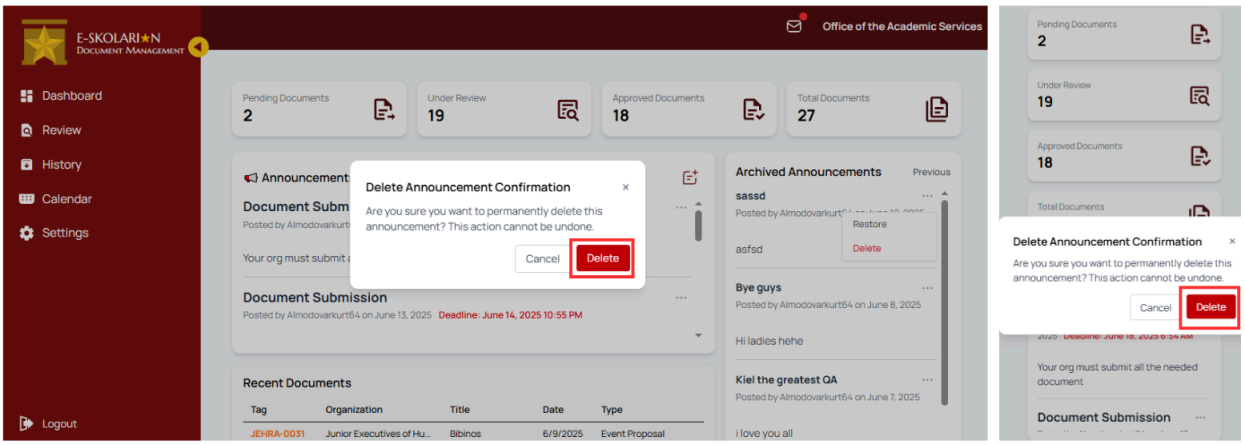

Announcements section. Locate the specific announcement you want to delete and click the ellipsis icon (three dots). A dropdown menu will appear—select 'Delete'.

DESKTOP **MOBILE**

2. A confirmation modal will appear asking you to confirm the action. Click the Delete button to proceed. Once deleted, the announcement will be permanently removed and cannot be restored. A toast message will appear to confirm that the announcement has been successfully deleted.

DESKTOP **MOBILE**

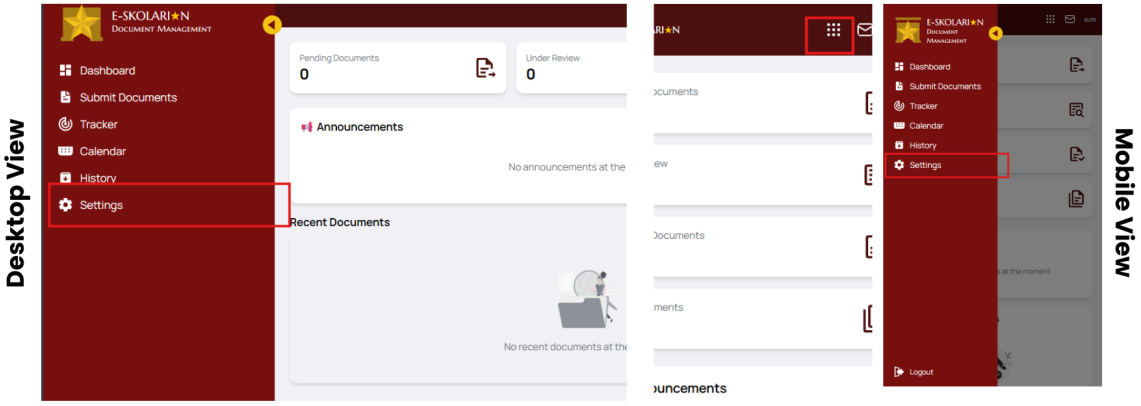

Settings Feature

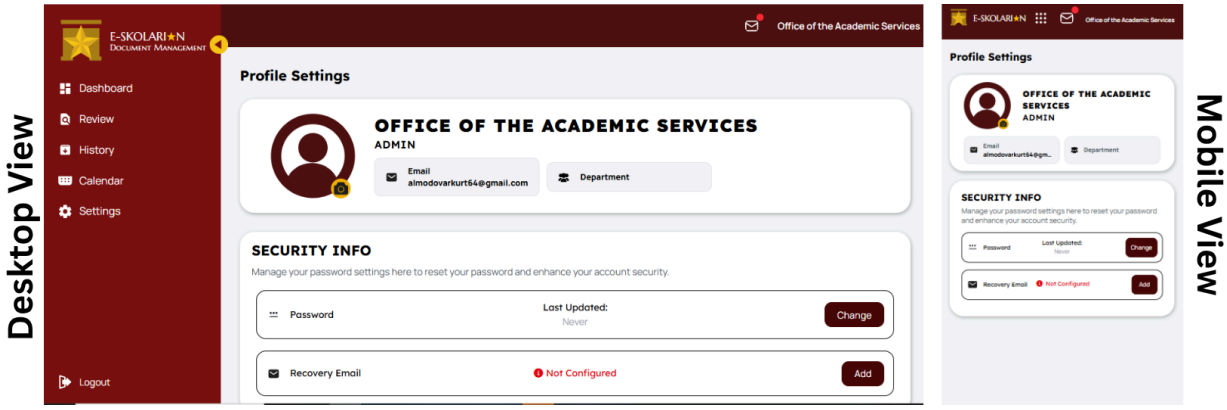

The settings feature allow users to view their account credentials. This also allows changing the profile photo, configuring a recovery email details, and changing password.

Navigating to Admin Settings

1. As you successfully signed in, you may see the Settings menu in the sidebar, you may access it by clicking it. For Mobile devices, you are tasked to click the “chocolate” icon for the sidebar to appear before being able to access the ‘Settings’.

3. You may now view your account credentials in the settings.

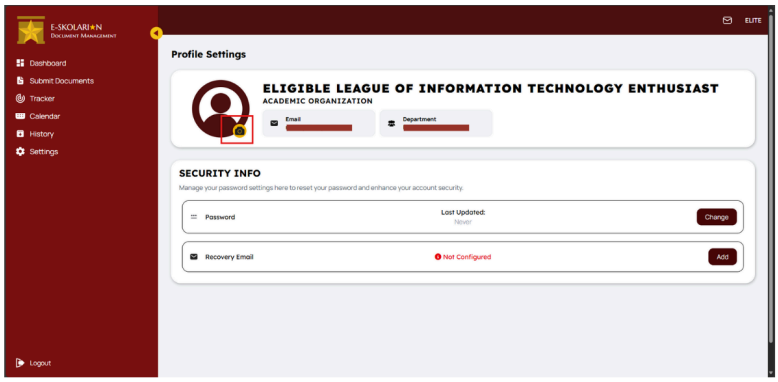

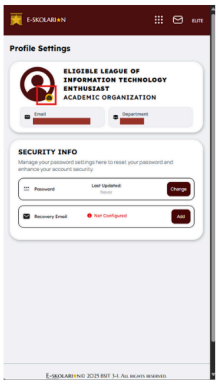

Updating Your Profile Photo

1. To update your profile photo in the system, you are tasked to

click the ‘Camera’ icon beside the profile photo.

Desktop View

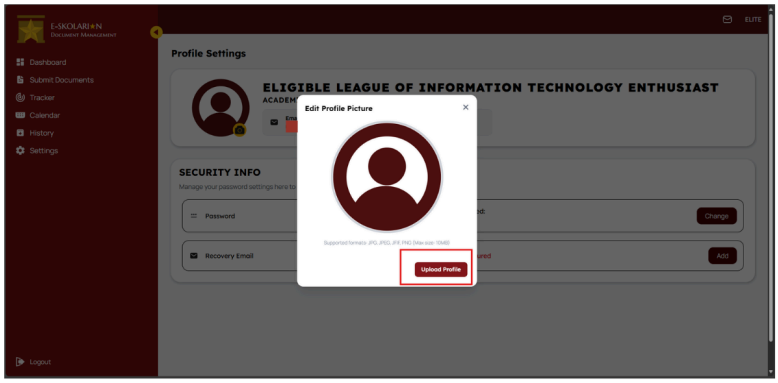

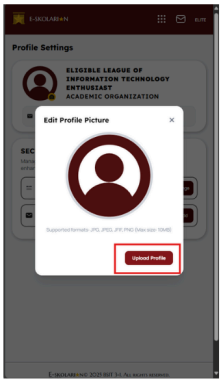

Mobile View

2. A modal pop-up will display on your screen, to upload your desired image, you may click the ‘Upload Profile’ button.

Desktop View

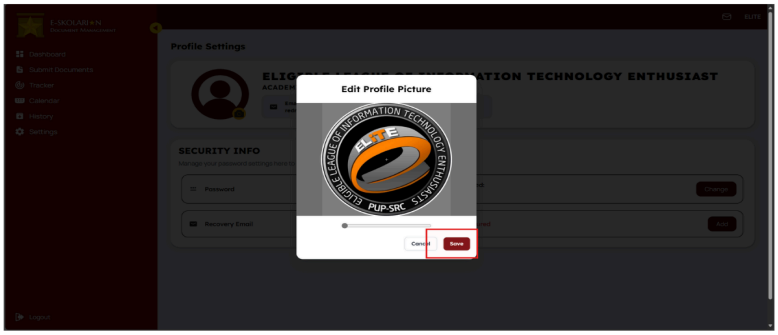

Mobile View

3. The system will redirect to your files in order for you to choose a desired image
4. You may now save the changes to reflect your new profile photo in the system.

Desktop View

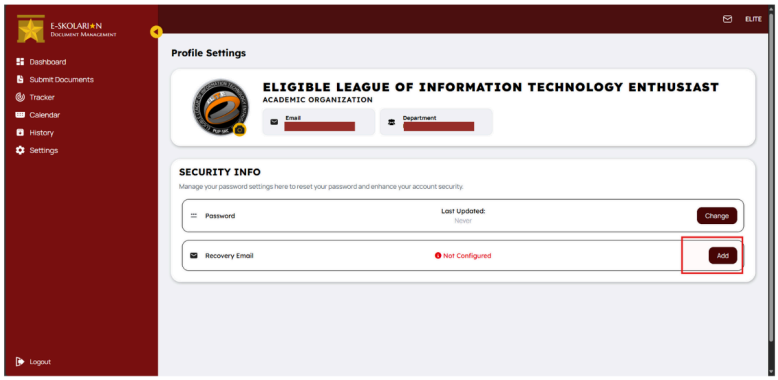

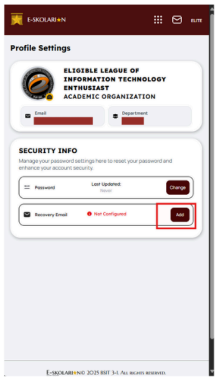

Mobile View

Adding Recovery Email

1. To configure your account's safety, you are tasked to add a recovery email, to do this, you might want to press the 'Add' button in the Recovery Email section.

Desktop View

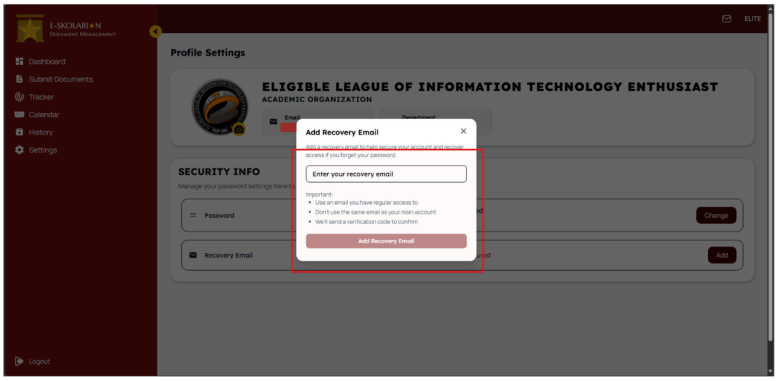

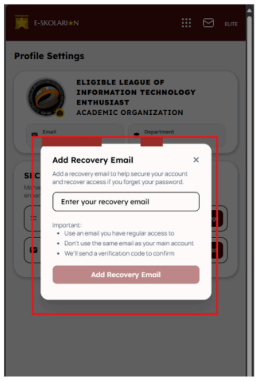

Mobile View

2. A modal pop-up will display on your screen. To add your desired recovery email, enter the email address in the input field provided.

Desktop View

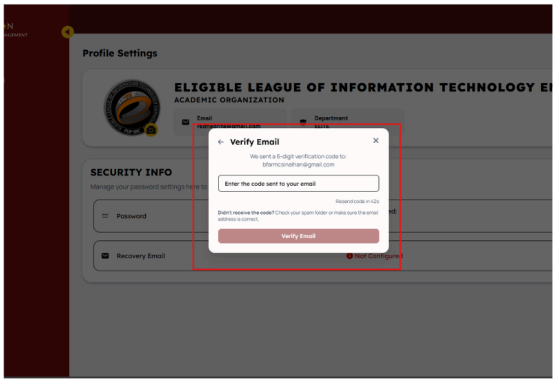

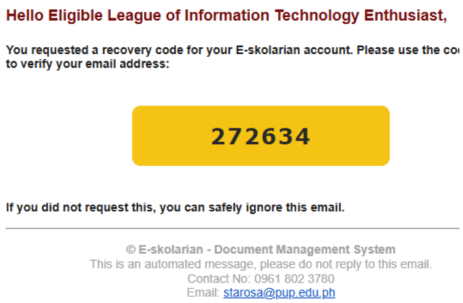

Mobile View

3. Once the recovery email is provided, click 'Add Recovery Email'. A verification code will be sent to the email address you entered. Enter the verification code in the Verify Email modal that appears, then click 'Verify Email'. A toast message will show up to confirm that the recovery email has been successfully added.

Desktop View

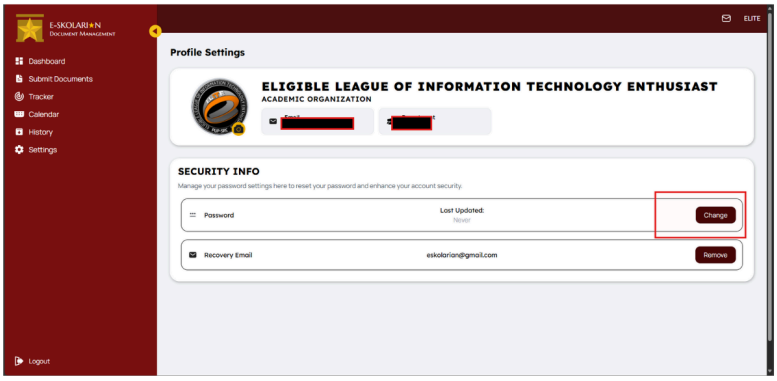

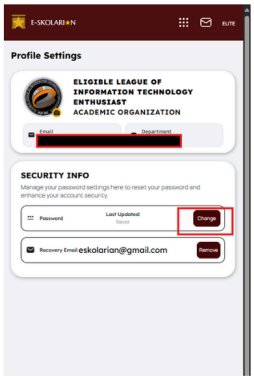

Recovery Message

Changing your Organization Password

1. To change your account's password, you are tasked to click the 'Change' button in the password section.

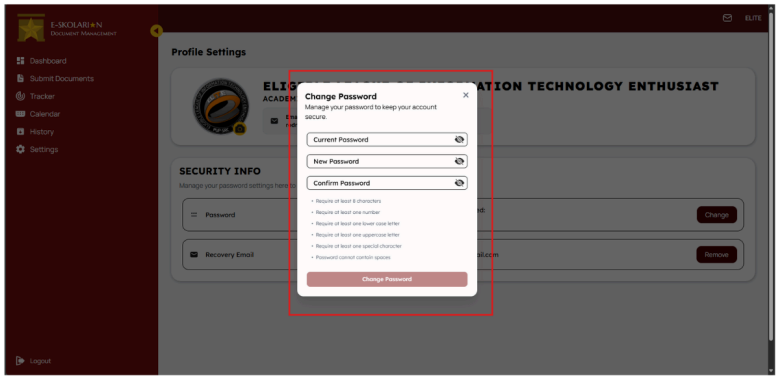

Desktop View

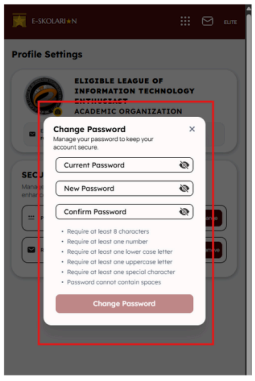

2. A modal pop-up will display on your screen, to change your password, you are tasked to enter the necessary inputs for the Change Password.

Desktop View

3. After filling in the fields, click the ‘Change Password’ button to successfully update your password. A toast message will appear once your password has been successfully changed.

Troubleshooting for Student Organization Issues and Solutions

1. **Dashboard Not Showing Document Summary or Submissions**

   Solutions:

   - Ensure that student organizations have submitted documents so data can be displayed.
   - Try refreshing the page or clearing your browser cache, then reload the dashboard.
   - Log out and log back in to reload the dashboard view.
   - If the issue persists, contact the system support team for assistance.

2. **Announcements Not Appearing or Not Loading Properly**

   Solutions:

   - Confirm that announcements have been successfully posted and not archived or deleted.
   - Check your internet connection, then reload the dashboard.
   - Try accessing Eskolarian using a different browser or device to rule out compatibility issues.
   - If the issue continues, consult with the system support team for assistance.

3. **Unable to Change Password in Settings**

   Solutions:

   - Make sure you enter your current password correctly.

- Choose a new password that meets the platform's password criteria (e.g., minimum characters, special characters).
- Ensure all required fields are completed, then click 'Change Password'.
- If you still encounter issues, contact the admin for password reset assistance.

Contact Information and Support Resources (Internal/Developer Support)

For any technical concerns or assistance regarding the PUPSRC Organization Document Management System (Eskolarian), student organizations may reach out through the following support channels:

- **Internal IT/Development Team Lead**: Ayumi Hidalgo
- **Technical Support Contact**: Red Aaron Negrite – 0915-096-2438
- **Emergency Contact Email**: eskolarian@gmail.com
- **Internal Knowledge Base/Runbook**: Refer to the Functional Specification Document for detailed system processes and troubleshooting guidelines.

Glossary and Index (Technical & System Terms)

Define key technical and system-specific terms.

- Dashboard - A visual overview showing the number of submitted documents categorized into Pending, Under Review, Approved, and Total.
- Document Status Summary - A visual overview showing the number of submitted documents categorized into Pending, Under Review, Approved, and Total.
- Announcements - Notices created by admins or the super admin to inform student organizations about updates, deadlines, or reminders.
- Recovery Email - A secondary email added to the account to help with account recovery or additional security.
- User Interface (UI) - The part of the system the user interacts with, including buttons, menus, forms, and visual elements.
- Super Admin - A user role with the highest level of control in the system, responsible for managing admins and their announcements.
- Modal Pop-Up - A temporary window or box that appears on the screen to allow users to complete specific actions, such as uploading a profile photo or changing a password.

Closing Statement

Thank you for using the PUPSRC Organization Document Management System. We hope this manual helps you navigate and maximize the platform's features. For questions or support, feel free to contact our team. Together, let's promote organized, secure, and efficient document management across all student organizations in our campus.
