Preface

Welcome to the user manual for the Resort Reservation System at Villa Gilda Resort. This manual is designed to provide a comprehensive guide to navigating and utilizing our reservation system. This manual will serve as your primary resource for understanding the functionalities and capabilities of our system.

The goal of this user manual is to ensure that every user can efficiently and effectively manage reservations, from initial booking to check-out. We aim to simplify the reservation process and enhance the overall guest experience at Villa Gilda Resort. This manual will cover a wide range of topics, including system navigation, booking procedures, modifying and canceling reservations, and generating reports.

This user manual is intended for all personnel involved in the reservation process at Villa Gilda Resort, including the administrator and staff. It is also a valuable resource for new employees who need to quickly get up to speed with our reservation system. By following the guidelines and instructions provided, users at all levels will be able to deliver exceptional service and maintain the high standards of Villa Gilda Resort.

1. Introduction

The Villa Gilda Resort Reservation System is a web-based tool developed to streamline the management of reservations for the resort. This user manual is designed to assist staff and administrators in efficiently handling all aspects of the reservation process.

As the assigned personnel for managing reservations, staff and administrators have to ensure the smooth operation of the resort's booking system. The website facilitates this by providing various features specifically for reservation management and administrative needs.

2. General Information

The Villa Gilda Resort reservation system is designed to streamline the booking process, making it easier for staff and administrators to manage reservations efficiently and effectively.

2.1. System Overview

The Villa Gilda Resort Reservation System has the following functionalities:

1. Login Page
2. Home Pages - Each for both the staff and the administrators
3. Reservation Management
4. Administrative tools
5. User Management
6. Detailed Analytics
7. Real-Time Availability

2.2. Contact

Requests for access to, inquiries on the use of the system, and comments on the design and functionalities of the application should be sent to the dedicated email address ResortVillaGilda@gmail.com.

3. Key Features of Villa Gilda System

The Villa Gilda Resort Reservation System is designed to provide a comprehensive and user-friendly experience for managing resort reservations. These features aim to provide a seamless user experience for administrators and staff, ensuring secure access, real-time updates, and comprehensive reporting capabilities. The following key features outline the core functionalities of the Villa Gilda Resort Reservation System:

3.1. Secure Login

Only authorized users can access the system. Before entering the website, users (admin/staff) are required to input their registered email and password. When adding staff, the system ensures they are assigned a strong password by enforcing validation that the password must contain special characters, numbers, and be 8 or more characters long. For added security while logging in, the password field includes a hide/unhide option.

User Management

The admin's email and password are already registered in the system's database. The admin can manage staff accounts, as the admin has access to the Add Staff page where he/she can add and remove staff.

Password Recovery

The system includes a "Forgot Password" option on the login page, allowing staff and admins to reset their passwords through OTP verification sent to their registered email.

3.2. Real-Time Availability

The system offers real-time updates, helping both the admin and staff to manage reservations efficiently. They can see the latest available and reserved dates directly on the calendar, with any changes appearing instantly. This feature prevents double bookings and ensures smooth operations. The admin can quickly add, change, or cancel bookings, keeping all information accurate. Additionally, real-time data helps create up-to-date reports on reservations and occupancy, supporting better decision-making.

3.3. Portability

The system is designed with portability in mind, ensuring it can be accessed and managed from various devices and locations. It is compatible with desktops, laptops, tablets, and smartphones, allowing users to manage reservations on the go. The responsive design adapts to different screen sizes and resolutions, providing a smooth experience across all devices. It is highly portable, offering flexibility and convenience for both the admin and staff.

3.4. Calendar-Based Booking System

The Villa Gilda Resort reservation system allows users to manage and schedule reservations using a visual calendar interface. It provides a user-friendly way to view, manage, and book reservations based on the availability of dates. It replaces traditional booking methods with an interactive calendar that shows real-time availability and allows users to make bookings directly through it.

Reservation Date Availability

The calendar displays dates with color codes to indicate its availability (green for available, red for booked) to quickly show which dates are open for reservations. Meanwhile, dates in the calendar are shaded gray for dates that have already occurred, indicating they are unavailable for booking.

Booking Actions

Users can initiate reservations or delete existing bookings simply by clicking on their selected date.

3.5. Detailed Analytics and Reporting

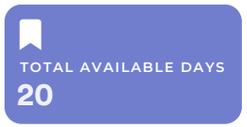

Reservation Reports

The system generates detailed reports on reservations.

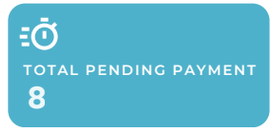

- **Monthly Reservations:** View the total number of reservations made in a month.

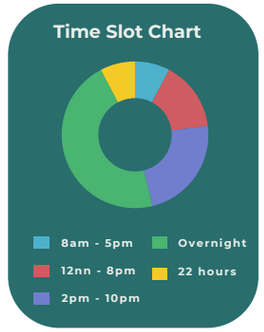

- **Available Dates:** Count the available dates in a month.

- **Pending Payments:** See the total number of reservations with pending payments in a month.

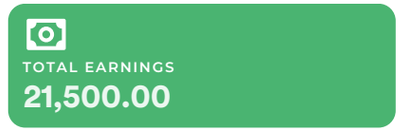

- **Time Slot Chart:** Analyze reservation patterns with a pie chart of time slots picked.

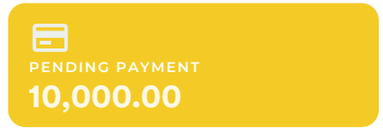

Earnings Reports

In addition to reservation reports, the system also generates detailed earnings reports to track and monitor earnings and revenue effectively.

- **Monthly Earnings:** View total earnings in a month.

- **Pending Payments:** Monitor the total value of pending payments to effectively manage cash flow.

- **Annual Earnings:** Show annual earnings for clear financial insight.

- **Monthly Sales Chart:** Visualize sales data on a monthly basis.

4. Getting Started

4.1. Accessing the Website

Access the website using modern browsers by entering the following link: https://d4wzh6tf-3000.asse.devtunnels.ms/

4.2. Browser Compatibility

This website is supported by modern browsers such as Google Chrome, Microsoft Edge, and Safari

4.3. User Access Roles, and Privileges

The Villa Gilda Resort reservation system is designed to accommodate two main types of users: Admins and Staff. The Admin has full access to the reservation system, while the Staff has limited access only. This section outlines the features/access that have limited accessibility between the staff and the admin.

Features/ Access	Admin	Staff
Dashboard Access	• Has access to the Dashboard section, thus responsible for monitoring Villa Gilda's monthly sales, the total number of pending payments, reservations, available days for reservations, earnings, the total amount of pending payments, and annual earnings	• Has no access
Add Staff	• Has access to the Add Staff section, thus responsible for adding and removing staff, and can oversee staff list.	• Has no access
Reserve	• Has full access to Reserve section. • Can make and delete reservations. • Can update the calendar-based reservation system.	• Has full access to Reserve section. • Can make and delete reservations. • Can update the calendar-based reservation system.
Reservation List	• Has full access to reservation list. • Can update the list	• Has full access to reservation list. • Can update the list.

4.4. Account Management

Creating an Account

Admins can create new accounts for staff.

Deleting an Account

Admin has the privilege to delete staff accounts that are listed in the staff list.

4.5. Logging In

The login page features a login form where the administrator and staff members can securely log in to their accounts.

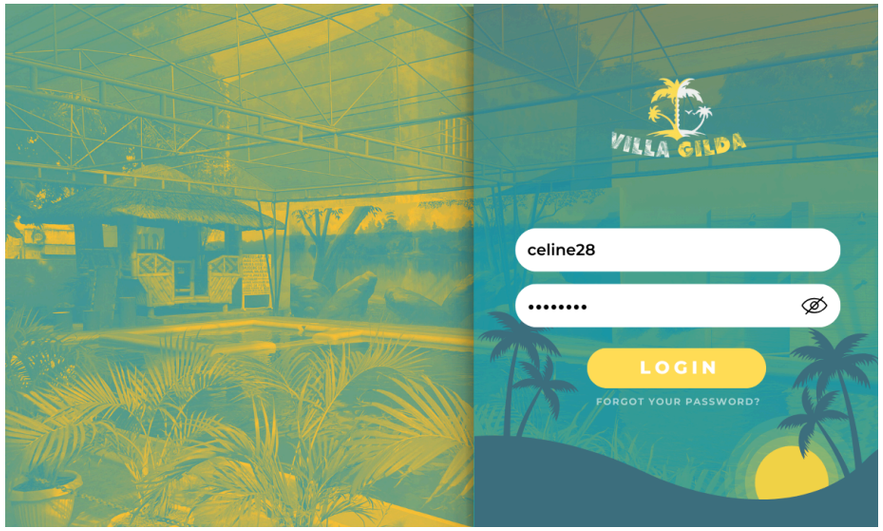

Figure 1. Login Page

To log in to your account, follow these steps:

1. Enter your username in the username field.
2. Enter your password in the password field.
3. Click the LOGIN button.

4.6 Password Recovery

If you forgot your password, you can reset it by following these steps:

1. Click the 'Forgot Your Password?' below the login button.
2. You will be directed to another page. Enter your registered email address and username in the provided fields.

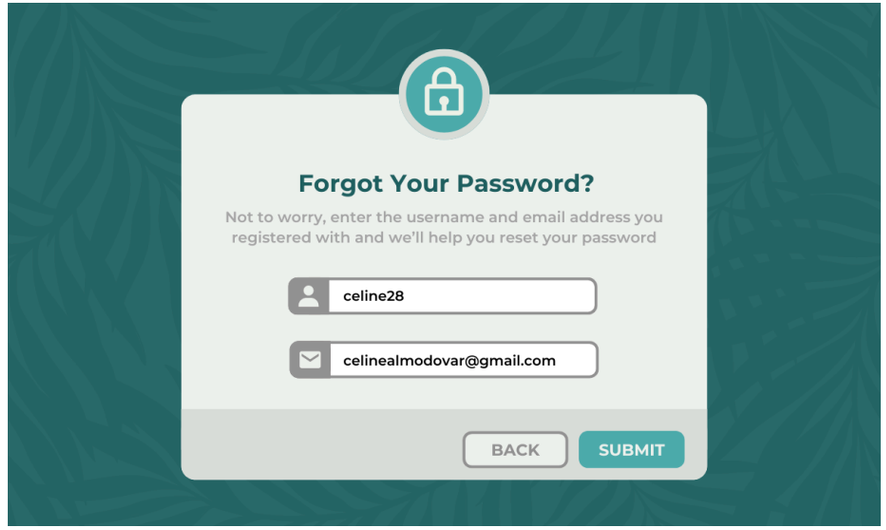

Figure 2. Forgot Password Page

3. Click SUBMIT
4. You will receive a 6-digit OTP (One-Time Password) sent to your registered email. Enter the OTP and click VERIFY OTP

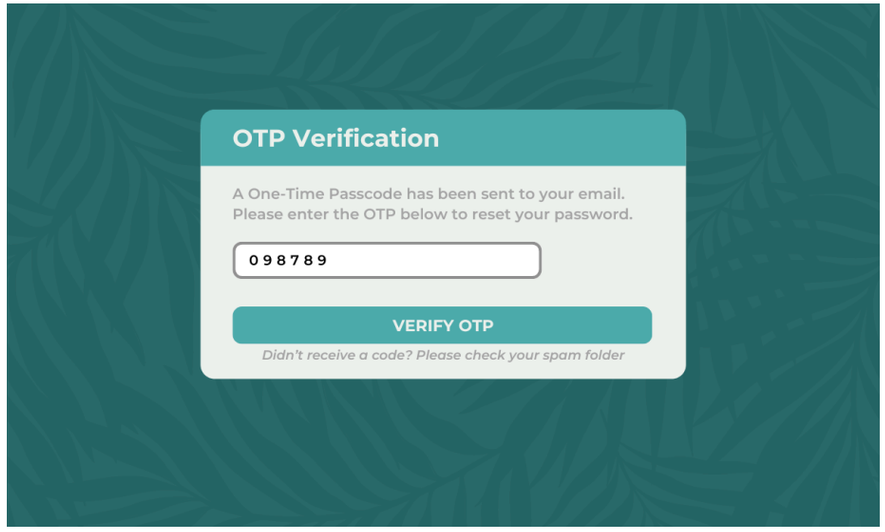

Figure 2.1. OTP Verification

NOTE: The speed of receiving the OTP on your email depends on the quality and speed of your internet connection.

5. You will be directed to another page. Enter a new password and confirm it by retyping.

6. Click SAVE PASSWORD

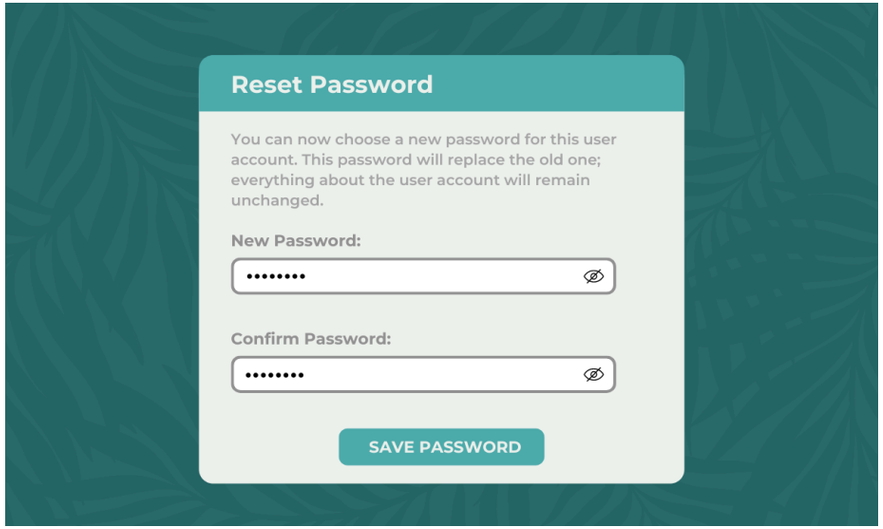

Figure 2.2. Reset Password

7. Once your password is successfully reset, a success message will appear. Click BACK TO LOGIN PAGE

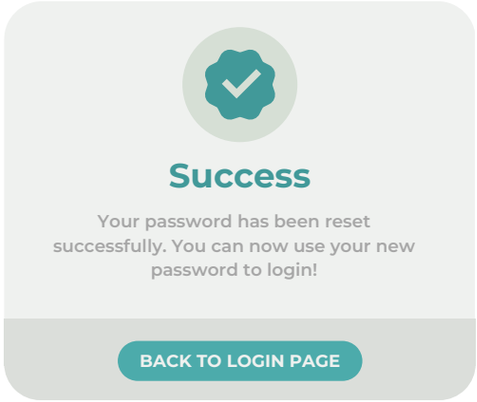

Figure 2.3. Reset Password Success Notif

8. You can now Log in using your new password.

5. Website Navigation

5.1. Homepage

After successfully logging in, the admin/staff will be directed to the Homepage. The admin's homepage differs from that of the staff. In the greetings, the admin's name will be displayed in yellow, while the staff's name will appear in blue. The staff has limited access compared to the admin, with restrictions such as not being able to access the dashboard or create accounts for other staff members.

Figure 3. Admin's Homepage

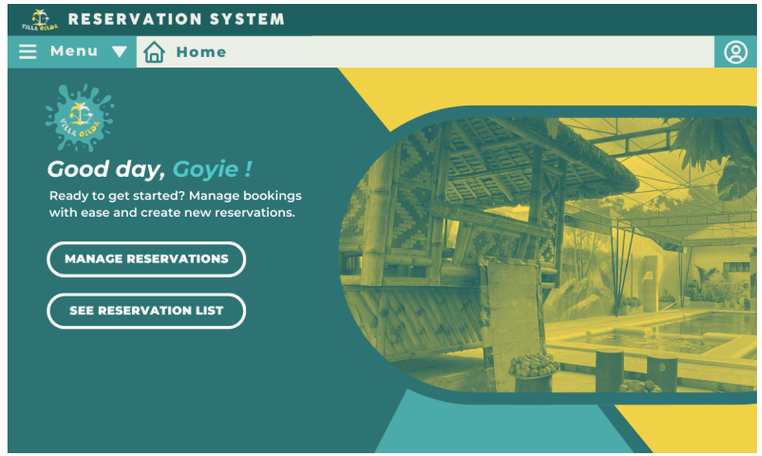

Figure 3.1. Staff's Homepage

5.2. Navigation Menu

To open the navigation menu, just click 

that is located below the logo in the header.

The navigation menu of the admin is different from the navigation menu of the staff. The admin profile is highlighted in yellow, while staff profiles are blue. Staff menu options include Home, Reserve, and Reservation List. The admin menu options include these, plus Dashboard and Add Staff.

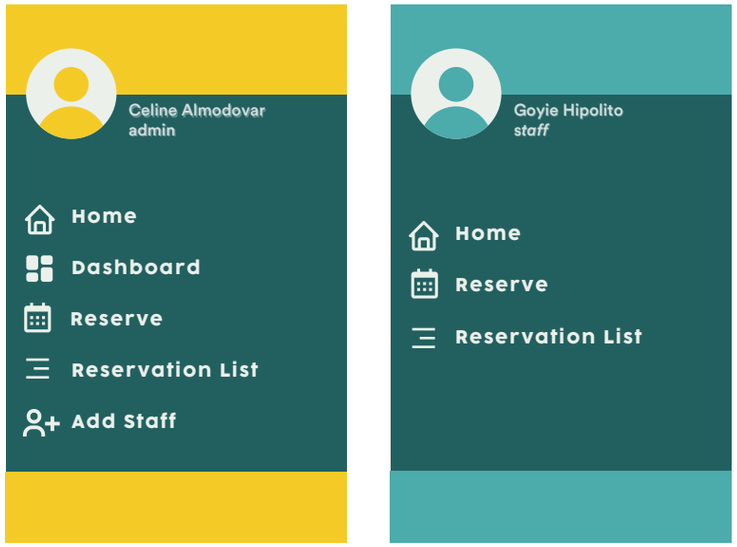

Figure 4. Navigation Menu of Admin and Staff

5.3. User Profile Menu

Click the  that is located on the opposite side of the menu button to see the Change Password and Log Out options.

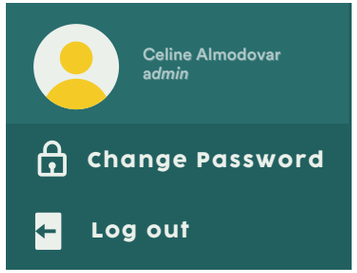

Figure 5. User Profile Menu Options

5.4. Dashboard

The dashboard, accessible exclusively to the admin, provides detailed insights into the resort's operations. It displays key metrics such as the total number of reservations, available dates, earnings, pending payments, and the number of pending payments, which can be viewed for any selected month. Additionally, the dashboard includes graphical representations, such as charts for time slots showing popular reservation times and a monthly sales chart. It also offers a comprehensive view of the resort's annual earnings, enabling strategic decision-making and financial planning based on clear data.

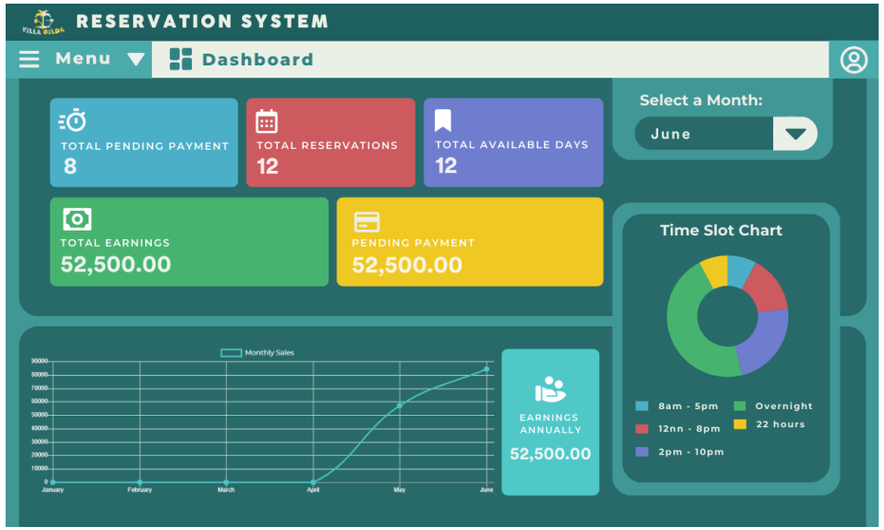

Figure 6. Dashboard

How to view dashboard data for a particular month?

To view dashboard data for a specific month, just follow these steps:

1. Find 

which is located at the top of the time slot chart.
2. Click the dropdown button.

Figure 6.1 Dashboard Month Selection

3. A list of months will appear.

4. Select the month you want to view from the list. This will update the dashboard to display information specific to the month you selected.

5.5. Reserve

To go to the Reserve Page, you can click 'Manage Reservations' on the Homepage or use the navigation menu and click ‘Reserve’. The Reserve Page contains a calendar where you can add and delete reservations.

- **Green dates** indicate that the date is still available.
- **Red dates** indicate that the date is already reserved.
- **Gray dates** indicate that the date has already passed.

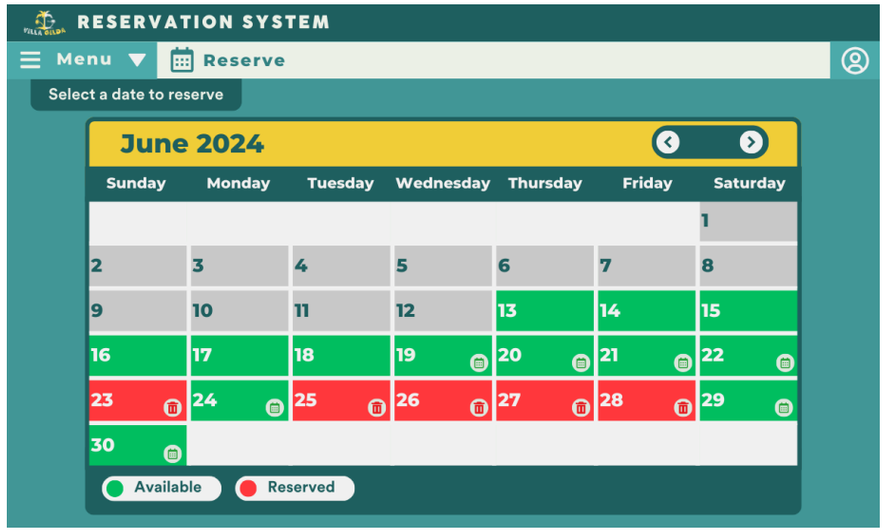

Figure 7. Reserve Page

Make a reservation

To make a reservation, just follow these steps:

1. Use  to navigate to the month you want to reserve in the calendar.
2. Find the exact date you want to reserve.
3. If the date is still available, click  located in the lower right corner of the date.

4. A resort booking form will appear. Complete all the fields.

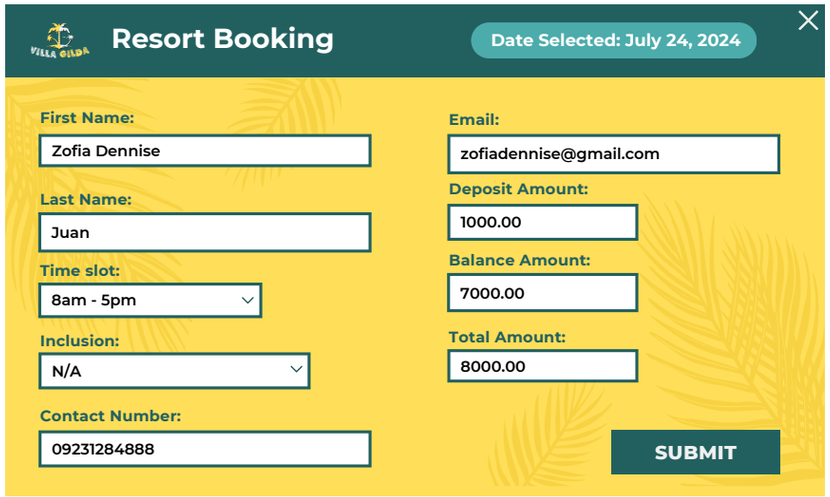

Figure 7.1. Resort Booking Form

5. Double-check the information you entered, then click SUBMIT

6. A success message will appear, indicating that the booking was successful, along with a summary of the reservation.

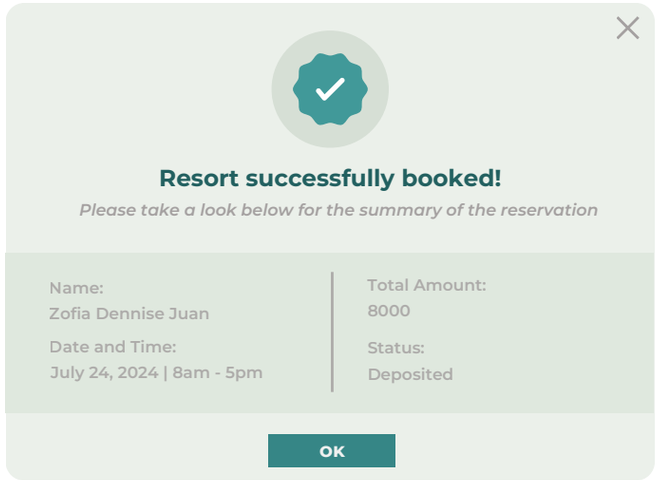

Figure 7.2. Reservation Success Notif

Delete a reservation

To delete a reservation, just follow these steps:

1. Find the reservation (red-colored dates) you want to delete in the calendar.
2. Click located in the lower right corner of the date.
3. A confirm deletion pop-up will appear. Click DELETE

Figure 7.3. Reservation Confirm Deletion

5.6. Reservation List

To go to the Reservation List, you can click 'See Reservation List' on the Homepage or use the navigation menu and click ‘Reservation List’. The Reservation List consists of all the reservation's essential information, including the customer's name, the reservation's time and date, and the specific inclusions such as LPG Gas and Stove. It also includes contact details like phone numbers and email addresses for communication purposes, the total amount to be paid, and the payment status, whether completed or pending.

- **White Receipt** - indicates that the customer is fully paid.
- **Gray Receipt** - indicates that the payment is pending.
- **Yellow Receipt** - indicates that the customer deposited.

NOTE: You can only view the receipt once the customer has fully paid or deposited a payment.

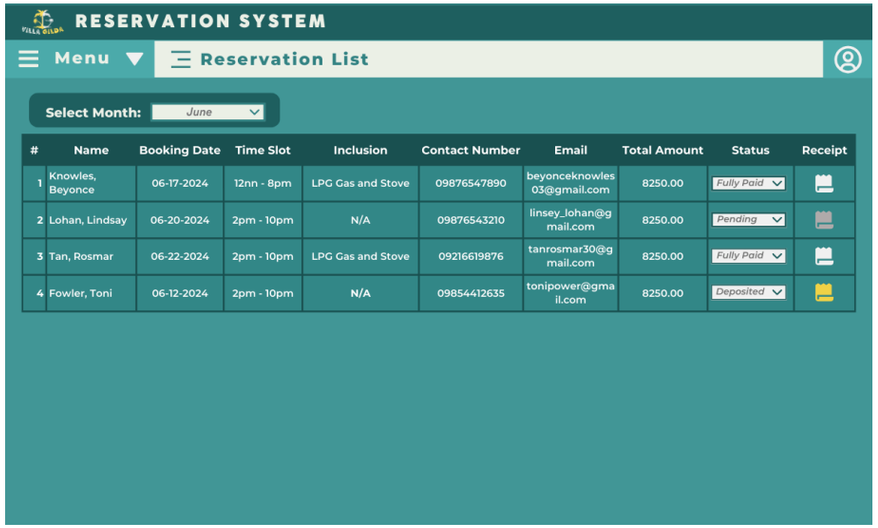

Figure 8. Reservation List Page

NOTE: The speed of receiving the Receipt on your email depends on the quality and speed of your internet connection.

View reservation list for a specific month

To view a reservation list on a specific month, follow these steps:

1. Find  which is located at the top of the reservation list.
2. Click the dropdown button.

Figure 8.1. Reservation List Month Selection

3. A list of months will appear.

4. Select the month you want to view from the list. This will update the reservation list to display information specific to the month you selected.

Change Payment Status

To change the payment status, just follow these steps:

1. Click the dropdown button.
2. Select the payment status that corresponds to the payment made by the customer.

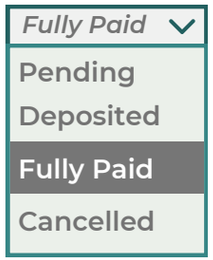

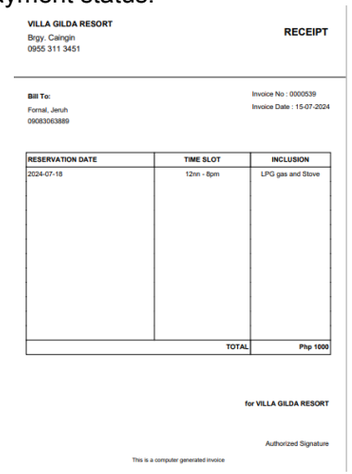

Figure 8.2. Payment Status Selection

View Receipt

To view receipt, just follow these steps:

1. Click the button under the Receipt column across the name of the customer that you want to view the receipt.
2. A copy of the receipt will be sent to the customer's email. The color will depend on the payment status.

6. Frequently Asked Questions (FAQs)

1. Who can use the website?

The website can be used by both administrators and staff of Villa Gilda Resort. Administrators have access to advanced management tools, while staff can manage daily operations and reservations.

2. Does the website have a customer side for guests?

Currently, the website is designed for use by administrators and staff. Guests can make reservations through other means, such as contacting the resort directly or using external booking platforms.

3. Is it possible to process transactions, such as cash payments from customers, through the website?

No, the website does not handle monetary transactions. However, customers can make payments via the admin or staff's GCash or pay in cash in-person, depending on their agreement with the person in charge.

4. How do I make a reservation through the Villa Gilda Resort System?

To make a reservation, log in to your account, navigate to the calendar-based booking system, select your desired date, and follow the prompts to complete the booking process.

5. Can I cancel or modify a reservation online?

Yes, you can cancel or modify a reservation online through your account. Navigate through the reservation details and follow the provided options for cancellation or modification.

6. How can I contact customer support for assistance?

For assistance, please contact us at our email: ResortVillaGilda@gmail.com.

7. What devices can I use to access the website?

You can access the website from a variety of devices, including desktop computers, laptops, tablets, and smartphones. The website is optimized for use on modern web browsers such as Google Chrome, Mozilla Firefox, Safari, and Microsoft Edge.

8. How do I access the website?

You can access the website using modern browsers (Google Chrome, Microsoft Edge, Safari, etc.) by entering the following link: https://d4wzh6tf-3000.asse.devtunnels.ms/

Glossary

1. **Availability:** The status indicating whether a date is open for booking.
2. **Admin Dashboard:** A visual representation of key metrics and performance indicators, providing an overview of reservation and financial data, specifically designed for administrators.
3. **Reservation:** A booking made by staff or the administrator.
4. **User Profile:** Personal information and account settings associated with each user's login credentials.
5. **Calendar-Based Booking System:** A feature allowing staff and administrators to view, select, and book available dates through an interactive calendar interface.
6. **Menu:** A navigation element on the website that provides easy access to different sections and features.
7. **Real-Time:** Information or data that is updated and available instantly as changes occur.
8. **Admin:** A user role with advanced access and control over the reservation system, responsible for managing reservations, user accounts, and other administrative tasks.
9. **Staff:** Users with responsibilities to manage daily operations and reservations, having access to necessary tools to perform their tasks.
10. **Payment Status:** The current state of a reservation’s payment.
11. **Fully Paid:** A payment status indicating that the total amount due for a reservation has been paid in full.
12. **Pending:** A payment status indicating that the payment for a reservation is awaiting completion or approval.
13. **Deposited:** A payment status indicating that a partial payment or deposit has been made towards a reservation.
14. **Cancelled:** A payment status indicating that the reservation has been cancelled and is no longer active.
